FEATURES

COMPLEMENTARY FEED FOR DOGS

DESCRIPTION

FULL OMEGA 3 promotes the strengthening of the immune system and assists in the treatment of dermatitis and other skin diseases. It also helps to alleviate inflammatory reactions such as asthma and rheumatoid arthritis, offering important aid in the treatment of arthritis and other inflammatory disorders. It preserves the vitality of the cells of the central nervous system in puppies and elderly subjects. FULL OMEGA 3 is a product enriched with OMEGA 3 POLYUNSATURATED FATTY ACIDS derived from natural sources, such as flax (Omega 3 C18: 3 170,000 mg / kg). The product ensures an optimal supply of omega 3 fatty acids to balance a daily diet often deficient in this nutrient.

TECHNOLOGY

Envelopes and preserves the integrity of the active ingredients against degradation over time caused by atmospheric agents (light, humidity, oxygen, etc.) and against oxidation from the oxidizing substances (iron, copper, choline) found in animal feed. **Allows the association of incompatible molecules with each other. Slowly releases its contents, rendering them bioavailable and active in the area of the intestines most capable of absorbing them.**

COMPOSITION

Vegetable hydrogenated oils and fats (from soybean), vegetable oils and fats (linseed*), carob flour, maize starch, calcium carbonate.

***microencapsulated**

ADDITIVES PER KG

Binders, anti-caking agents and coagulant:

- E 551a - Silicic acid, precipitated and dried 130.000 mg.

Antioxidants:

- E 321 - Butylated hydroxytoluene (BHT) 2.850 mg.

ANALYTICAL VALUES

- Crude protein 0,2% • Crude fat 77,7% • Crude fibre 0,4% • Crude ash 14% • Ash ins. in HCL 10,7%.

DIRECTIONS OF USE

mix with traditional food, both wet and dry. After mixing it is important not to cook the product.

RECOMMENDED QUANTITIES

0.5-1 g/kg of body weight per day, depending on the needs of the animal. Do not exceed the recommended quantity of 22 g per day. (1 teaspoon: approx. 4 g, 1 tablespoon: approx. 11 g).

METHOD OF CONSERVATION

Produced 3 years before the minimum conservation date indicated. The term refers to goods in sealed original packaging and stored in a cool and dry place.

BARCODE 8032622940411 - 250 g • 8032622940381 - 5 kg.
